## Press Release

### For Immediate Release

#### **Cowen Group, Inc. Announces 2007 Fourth Quarter and Year-end Results**

New York, February 28, 2008 - Cowen Group, Inc. (NASDAQ: COWN) today announced its operating results for the quarter and full year ended December 31, 2007.

Total revenue for the quarter ended December 31, 2007 was \$59.3 million, representing a decrease of 39% from \$97.4 million in the prior year period. The Company's adjusted net operating loss for the fourth quarter of 2007 was \$9.2 million compared to adjusted net operating income of \$8.3 during the fourth quarter of 2006 (see "Financial Measures" below for a discussion of adjusted net operating income). For the quarter ended December 31, 2007, the Company reported a GAAP net loss of \$10.7 million, or \$(0.86) per share, compared to net income of \$7.2 million, or \$0.55 per diluted share, in the prior year period. The Company's results for the fourth quarter of 2007 included a \$10.1 million cumulative adjustment to compensation expense to increase the Company's compensation and benefits expense to revenue ratio to 65% for the full year of 2007, excluding the expense related to equity awards to employees in connection with the Company's initial public offering.

For the full year, total revenue was \$261.6 million, representing a decrease of 24% from \$345.0 million for 2006. The Company's adjusted net operating loss for the twelve months ended December 31, 2007 was \$7.4 million, within the range of \$6.0 million to \$8.3 million provided in the Company's press release of December 10, 2007. For the twelve months ended December 31, 2007, the Company reported a GAAP net loss of \$11.3 million, or \$(0.88) per share, compared to GAAP net income of \$37.9 million, or \$2.92 per diluted share, for the twelve months ended December 31, 2006. For 2006, GAAP net income included the effects of a one-time \$24.8 million gain related to the Company's New York Stock Exchange membership seats and consideration received upon the consummation of the merger of the New York Stock Exchange and Archipelago Holdings, Inc. as well as a \$1.0 million gain on exchange membership seats at the Commodities Exchange of New York. In addition, the 2006 results included \$10.3 million of compensation expense associated with the accelerated vesting of certain deferred compensation plans as a result of the Company's separation from Société Générale.

During the fourth quarter the Company initiated a program to repurchase up to two million shares of its common stock. As of December 31, 2007, the Company had repurchased approximately 1.4 million shares. Subsequent to December 31, 2007, the Company repurchased approximately 0.5 million additional shares.

"Though our overall investment banking results were impacted by the challenging market conditions in the second half of 2007, I am pleased with our continued progress in our strategic advisory practice, as strategic advisory revenue increased 58% in 2007 compared to 2006," said

---

Kim S. Fennebresque, Chairman and Chief Executive Officer. “Our sales and trading group continues to demonstrate its consistent execution capabilities across a variety of market conditions as core brokerage revenue in the fourth quarter of 2007 increased 1% compared to the prior year period. Headed into 2008, our strategic advisory backlog is robust, up 13% from a year ago, and our public equity backlog remains strong. While market conditions in the fourth quarter and thus far this year have been difficult, our clients continue to need capital to execute their strategic initiatives and we will be ready to act on their behalf when the market is more receptive.”

## **Results of Operations**

### **Investment Banking**

The fourth quarter’s results reflected decreases in both public and private capital raising activities, partially offset by an increase in strategic advisory revenue. Investment banking revenue was \$20.6 million for the fourth quarter of 2007, down 61% from \$53.1 million in the fourth quarter of 2006.

- Equity underwriting revenue was \$9.5 million, down 70% from \$31.5 million in the prior year period. The decrease was a result of decreased transaction volume and a lower percentage of lead-managed business. In the fourth quarter of 2007, the Company lead managed 4 offerings and co-managed 9 offerings of equity and convertible securities for 12 companies, raising proceeds of approximately \$4.0 billion. In the fourth quarter of 2006, the Company lead managed 12 offerings and co-managed 14 offerings of equity and convertible securities for 26 companies, raising proceeds of approximately \$5.7 billion.
- Private placement revenue was \$5.3 million in the fourth quarter of 2007, a decrease of \$13.7 million, or 72%, compared to \$19.0 million in the fourth quarter of 2006. For the fourth quarter of 2007, the Company completed 5 private transactions with an average transaction size of \$36.7 million compared to 14 transactions with an average transaction size of \$37.3 million in the prior year period.
- Strategic advisory fees were \$5.9 million in the fourth quarter of 2007, an increase of \$3.3 million, or 125%, compared to \$2.6 million in the fourth quarter of 2006. The year-over-year increase was primarily the result of increased transaction volume in the fourth quarter of 2007 as compared to the fourth quarter of 2006. In addition, the Company’s fourth quarter 2007 results included \$1.0 million in fairness opinion fees related to two transactions that were announced during the quarter but are not expected to close until early 2008. The Company acted as an advisor on four strategic advisory transactions that closed in the fourth quarter of 2007 compared to two strategic advisory transactions that closed in the fourth quarter of 2006.

### **Brokerage**

Brokerage revenue was \$35.1 million for the fourth quarter of 2007, a decrease of 12%, or \$4.9 million, compared to \$40.0 million for the prior year period. The decrease resulted primarily from a decrease in the value of the Company’s warrant positions that were received in connection with investment banking transactions and a decrease in revenues related to the

---

Company's convertible trading activities compared to the fourth quarter of 2006. In addition, the fourth quarter of 2006 included \$1.5 million of gains on restricted stock related to seats held on demutualized exchanges. Excluding these extraordinary items, Cowen's core brokerage business increased \$0.2 million to \$36.1 million in the fourth quarter of 2007, compared to \$35.9 million in the fourth quarter of 2006.

#### **Interest and Dividend Income**

Interest and dividend income was \$2.3 million for the fourth quarter of 2007, a decrease of \$0.9 million, or 29%, compared with \$3.2 million in the prior year period. The decrease resulted primarily from lower average interest bearing assets in the fourth quarter of 2007 compared with the fourth quarter in 2006.

#### **Other**

Other revenue for the fourth quarter of 2007 was \$1.4 million, an increase of \$0.3 million, or 25%, compared to \$1.1 million in the fourth quarter of 2006. The increase was primarily attributable to an increase in fees for managing the assets and investments of certain private equity/alternative investment funds.

#### **Compensation Expense**

Employee compensation and benefits expense was \$51.1 million for the fourth quarter of 2007, a decrease of \$8.0 million, or 14%, compared with \$59.1 million for the prior year period. The decrease was primarily attributable to the application of the Company's compensation to revenue ratio to lower revenue in 2007, partially offset by the increase of the Company's compensation to revenue ratio to 65% for the full year of 2007. Employee compensation and benefits expense for the fourth quarter of 2007 included \$2.4 million of expense associated with the initial grant of equity to the Company's employees in connection with its initial public offering which compares to \$2.6 million in the prior year period. Excluding the expense associated with the initial grant of equity and the cumulative adjustment to compensation expense, employee compensation and benefits expense as a percentage of total revenues was 65% and 58% for three months ended December 31, 2007 and 2006, respectively.

#### **Non-Compensation Expense**

Non-compensation expense was \$25.0 million for the fourth quarter of 2007, a decrease of \$3.9 million, or 13% compared with \$28.9 million in the prior year period. The decrease was primarily attributable to decreases in communications and floor brokerage and trade execution related expenses as a result of the Company's new clearing agreement.

#### **Income Taxes**

The Company recorded a tax benefit of \$6.1 million in the fourth quarter of 2007, which reflects an effective tax rate of 36.3%, compared to a provision for taxes of \$3.1 million for the fourth quarter of 2006, which reflects an effective tax rate of 30.0%.

#### **Financial Measures**

---

In addition to the results presented above in accordance with generally accepted accounting principles, or GAAP, the Company presents financial measures that are non-GAAP measures, such as adjusted net operating income. The Company believes that these non-GAAP measures, viewed in addition to and not in lieu of the Company's reported GAAP results, provide useful information to investors regarding its performance and overall results of operations. These metrics are an integral part of the Company's internal reporting to measure the performance of its business and the overall effectiveness of senior management. Reconciliations to comparable GAAP measures are available in the accompanying schedules. The non-GAAP measures presented herein may not be comparable to similarly titled measures presented by other companies, and are not identical to corresponding measures used in our various agreements or public filings.
