U.S. GAAP Financial Measures

During the first quarter of 2021, the Company changed the presentation of certain income streams on its U.S. GAAP preliminary Unaudited Condensed Consolidated Statements of Operations by moving the income streams from Other income - net gains (losses) on securities, derivatives and other investments to Revenues. Additionally, the Company moved proprietary trading gains and losses generated by the Company's broker dealer entities from Brokerage revenue to Investment income (loss) – securities principal transactions, net. The Company believes that these presentation changes provide a better representation of the Company's operating results as it is used by management to monitor the Company's financial performance and is consistent with industry practice. The changes in presentation have no impact on net income and prior period amounts have been recast to reflect such changes in presentation.

Second quarter 2021 revenue was \$458.8 million versus \$646.2 million in the second quarter of 2020. The year-over-year decrease was due primarily to decreased investment income and consolidated funds' principal transactions, net, partly offset by increased investment banking and brokerage activity and higher management fees.

Second quarter 2021 investment banking revenues increased \$21.0 million to \$225.0 million. During the second quarter of 2021 the Company completed 39 underwriting transactions, 41 strategic advisory transactions and 6 debt capital markets transactions.

Second quarter 2021 brokerage revenues increased \$8.9 million to \$139.1 million. The revenue growth was attributable to an increase in institutional brokerage, including special situations trading, cash trading and non-U.S. execution, as well as an increase in institutional services, primarily securities finance and prime brokerage.

Second quarter 2021 investment income decreased \$204.3 million. The decrease included a \$117.0 million decrease in securities principal transactions, including lower performance in the merchant banking portfolio and in public healthcare investments as well as a decrease in carried interest allocations.

Second quarter 2021 employee compensation and benefits expenses were \$219.2 million, an decrease of \$86.1 from the prior-year period. The year-over-year decrease was due primarily to lower total revenues resulting in a lower compensation and benefits accrual.

Second quarter 2021 income tax expense was \$10.2 million compared to a \$44.9 million income tax expense in the prior-year quarter. This change is primarily attributable to the change in the Company's income before income taxes for the respective periods.

Second quarter 2021 total expenses totaled \$333.1 million, a decrease of \$78.4 million from the prior-year period. The year-over-year decrease was primarily due to lower compensation expenses partially offset by an increase in brokerage and trader execution costs and professional, advisor and other fees associated with increased investment banking and brokerage activity.

Second quarter 2021 net income attributable to common stockholders was \$43.6 million compared to \$112.1 million in the second quarter of 2020. The decrease was primarily due to decreases in securities principal transactions and carried interest allocations.

Non-GAAP Financial Measures

Throughout this press release, the Company presents supplemental financial measures that are not prepared in accordance with US GAAP. These non-GAAP financial measures include (i) Pre-tax Economic Income (Loss) (ii) Economic Income (Loss), (iii) Economic Operating Income (Loss), (iv) Economic Proceeds and related components, (v) Net Economic Proceeds and related components, (vi) Economic Expenses and related components and (vii) related per share measures. The Company believes that these non-GAAP financial measures, viewed in addition to, and not in lieu of, the Company's reported US GAAP results, provide useful information to investors and analysts regarding its performance and overall results of operations as it presents investors and analysts with a supplemental operating view of the Company's financials to help better inform their analysis of the Company's performance.

These Non-GAAP financial measures are an integral part of the Company's internal reporting to measure the performance of its business segments, allocate capital and other strategic decisions as well as assess the overall effectiveness of senior management. The Company believes that presenting these non-GAAP measures may provide expanded transparency into the Company's business operations, growth opportunities and expense allocation decisions.

The Company's primary non-GAAP financial measures of profit or loss are Pre-tax Economic Income (Loss), Economic Income (Loss) and Economic Operating Income (Loss). Pre-tax Economic Income (Loss) is a pre-tax measure which (i) includes management reclassifications which the Company believes provides additional insight on the performance of the Company's core businesses and divisions; (ii) eliminates the impact of consolidation for Consolidated Funds; and excludes (iii) goodwill and intangible impairment, (iv) certain other transaction-related adjustments and/or reorganization expenses, as well as (v) certain costs associated with debt. Economic Income (Loss) is a similar measure, but after tax, which includes the Company's income tax expense or benefit [calculated on Pre-tax Economic Income (Loss)] once all currently available net operating losses have been utilized (this occurred during tax year 2020) and is presented after preferred dividends. Economic Operating Income (Loss) is a similar measure to Economic Income (Loss), but before depreciation and amortization expenses. The Company believes that these non-GAAP financial measures provide analysts and investors transparency into the measures of profit and loss management uses to evaluate the financial performance of and make operating decisions for the segments including determining appropriate compensation levels. Additionally, the measures provide investors and analysts with additional insight into the activities of the Company's core businesses, taking into account, among other things, the impact of minority investment stakes, securities borrowing and lending activities and expenses from investment banking activities on US GAAP reported results. The Company presents Pre-tax Economic Income (Loss) in addition to Economic Income (Loss) and Economic Operating Income (Loss) to provide insight to investors and analysts on how the Company manages its tax position over time.

In addition to Pre-tax Economic Income (Loss), Economic Income (Loss) and Economic Operating Income (Loss), the Company also presents Economic Proceeds, Net Economic Proceeds, Economic Expenses, as well as their related components. These measures include management reclassifications and the elimination of the impact of the consolidation for Consolidated funds as described above. These adjustments are meant to provide comparability to our peers as well as to provide investors and analysts with transparency into how the Company manages its operating businesses and how analysts and investors review and analyze the Company's and its peers' similar lines of businesses. For example, among others, within the Company's Op Co business segment, investors and analysts typically review and analyze the performance of investment banking revenues net of underwriting expenses and excluding the impact of reimbursable expenses. Additionally, the performance of the Company's Markets business is typically analyzed as a unit incorporating commissions, interest from securities financing transactions and gains and losses from proprietary and facilitation trading. The Company's investment management business performance is analyzed and reviewed by investors and analysts through investment income, incentive income and management fees. The presentation of Economic Proceeds, Net Economic Proceeds, Economic Expenses as well as their related components align with these and other examples of how the Company's business activities and performance are reviewed by analysts and investors in addition to providing simplification related to legacy businesses and investments for which the Company maintains long-term monetization strategies. Additionally, the Company manages its operating businesses to an Economic Compensation-to-Proceeds ratio. Presentation of Economic Compensation Expense and Economic Proceeds provides transparency in addition to the Company's US GAAP Compensation Expense.

Reconciliations to comparable US GAAP measures are presented along with the Company's Non-GAAP financial measures. The non-GAAP measures presented herein may not be comparable to similarly titled measures presented by other public companies and are not identical to corresponding measures used in our various agreements or public filings.

These Non-GAAP measures should not be considered in isolation or as a substitute for revenue, expenses, income (loss) before income taxes, net income, operating cash flows, investing and financing activities, or other income or cash flow statement data prepared in accordance with US GAAP. As a result of the adjustments made to arrive at these Non-GAAP measures described below, these Non-GAAP measures have limitations in that they do not take into account certain items included or excluded under US GAAP, including its consolidated funds.

Economic Proceeds were \$390.1 million versus \$558.7 million in the second quarter of 2020, a decrease of 30%.

Investment Banking Economic Proceeds were \$214.4 million, up 13% versus the prior-year period, driven by increased capital markets advisory revenue and higher-fee M&A transactions.

Brokerage Economic Proceeds of \$175.8 million were up 5% versus the prior-year period, driven by strength in cash trading, non-US execution, special situations, prime services and securities finance.

Management Fees Economic Proceeds rose 26% year-over-year to \$18.1 million in the second quarter, driven primarily by higher AUM in the sustainability and activist strategies.

Incentive Income Economic Proceeds were a loss of \$31.1 million in the second quarter of 2021, down from \$46.4 million in the prior-year period, primarily due to a quarterly mark-to-market on performance fees in the sustainability and healthcare investment strategies.

Investment Income Economic Proceeds posted income of \$5.5 million, down from \$140.5 million in the prior-year period. Second quarter 2020 investment income included a \$129.8 million unrealized gain on the investment in Nikola.

Economic Compensation Expenses were \$220.4 million compared to \$305.1 million in the second quarter of 2020. The decrease was due to lower revenues. The second quarter 2021 economic compensation-to-proceeds ratio was 56.5%, up from 54.6% in 2Q20.

Economic Non-compensation Expenses Second quarter 2021 fixed non-compensation expenses were up \$7.0 million from the prior-year period at \$41.9 million. Variable non-compensation expenses were \$46.0 million, up from \$40.8 million in the second quarter of 2020. The increase is related in part to higher brokerage and trade execution costs due to increased volumes as well as higher professional fees and increased travel, entertainment and business development expenses.

Economic Depreciation and Amortization Expenses were \$4.6 million compared to \$5.7 million in the second quarter of 2020. The decrease was due to certain intangibles which were fully amortized during 2020.

Adjustments made to US GAAP Net Income (Loss) to arrive at Economic Operating Income (Loss)

Management Reclassifications

Management reclassification adjustments and fund consolidation reclassification adjustments have no effect on Economic Operating Income (Loss). These adjustments are reclassifications to change the location of certain line items.

- a Underwriting expenses: Economic Proceeds presents investment banking revenues net of underwriting expenses.
- b Reimbursable client expenses: Economic Proceeds presents expenses reimbursed from clients and affiliates within their respective expense category but is included as a part of revenues under US GAAP.
- c Securities financing interest expense: Brokerage Economic Proceeds included net securities borrowed and securities loaned activities which are shown gross in interest income and interest expense for US GAAP.
- d Fund start-up costs, distribution and other fees: Economic Proceeds and Economic Interest Expense are net of fund start-up costs and distribution fees paid to agents and other debt service costs.
- e Certain equity method investments: Economic Proceeds and Economic Expenses recognize the Company's proportionate share of management and incentive fees and associated share of expenses on a gross basis for equity method investments within the activist business, real estate operating entities and the healthcare royalty business. The Company applies the equity method of accounting to these entities and accordingly the results from these businesses are recorded within Other Income (Loss) for US GAAP.
- f Carried interest: The Company applies an equity ownership model to carried interest which is recorded in Investment income - Carried interest allocation for US GAAP. The Company presents carried interest as Incentive Income Economic Proceeds.
- g Proprietary trading, interest and dividends: Economic Proceeds presents interest and dividends from the Company's proprietary trading in investment income.
- h Insurance related activities expenses: Economic Proceeds presents underwriting income from the Company's insurance related activities, net of expenses, within other revenue. The costs are recorded within expenses for US GAAP reporting.
- i Facilitation trading gains and losses: Economic Brokerage Proceeds presents gains and losses on investments held as part of the Company's facilitation and trading business within brokerage revenues as these investments are directly related to the markets business activities while these are presented in Investment income - Securities principal transactions, net for US GAAP reporting.
- j Associated partner/banker compensation reclassification: Economic Compensation Expense presents certain payments to associated banking partners as compensation rather than non-compensation expenses.
- k Management company non-controlling interest: Economic Expenses non-controlling interest represents only operating entities that are not wholly owned by the Company. The Company also presents non-controlling interests within total expenses for Economic Income (Loss).
